Letter Dispatch No. 4180

Madhesh Province, Nepal

Date: 21 Sep, 2025

To,

Namaste Gumda.

## Subject:- Support For Water Filter

Early September this year massive outbreak of cholera resulting 300 and more patients in Birgunj Municipality Hospitals and Health Centers was recorded. The main reason of cholera was due to the breakage of water pipe and later mixed with drainage and some even contaminated due to flood waters. To stop the rapid spread of cholera all the educational institutions were closed. Many of the patients infected were children, woman and old people from poor communities. We hearby request Namaste Gumda to provide filters to school and poor community to avoid water borne diseases in future.
