To,
The Chairman,
Namaste Gumba Project, Switzerland

Subject: Assist budget for the construction of the playground and the management of furniture

Dear Sir,

We are very happy by getting the support from your project to construct a two-story building, which has four rooms and a strong wall of Nepal Rastriya Secondary School, Gurans-6, Piladi, Dailekh. Thank you so much sir for your help. The school's family of Nepal Rastriya Secondary School will never forget your help until the existence of our lives.

A two-story building and a strong wall of school have helped to the school to provide quality education to the students to provide capable and skillful manpower in Gurans Rural Muncipiility-6, Piladi, Dailekh. The good work of your project has made the people happy and excitement to uplift the status of education in this place. Nobody school will provide quality education to the students without well infrastructure and well-furnished rooms. Your project has played the vital role to provide quality education to the students of this place by constructing a two-story building, which has four rooms, and a strong wall. Nowadays students are unable to escape from this school because of a strong wall. Our school has no well playground to conduct extra-curricular activities and well furnitures rooms to conduct teaching learning activities at school. Lack of well furniture at the classrooms, girls and boys have to sit together during teaching learning activities. Sometime it has found that students were fighting with each other for sitting. The girls have felt ashamed to sit with the boys. However, the poor condition of furniture, the girl's students have to sit with them together. Our school is unable to conduct the extra-curricular activities at school each Friday because there is no well playground. For the holistic development of the students, there is a necessary extra-curricular activity at school. However, our school is unable to conduct extra-curricular activities for students. Therefore, some teachers are unable to run teaching learning activities at school

effectively and smoothly. We have submitted the estimate of school's playground, furniture and the necessary budget with an application to construct well playground and management of furniture, which will help to give details information about this school. We heartily request to you sir, please help us some budget to manage the furniture of the school and construct well playground to provide quality and quantity education to the students of Nepal Rastriya Secondary School to provide skillful and capable men power to complete with national and international fields to get jobs. If your project and you provide budget to manage the furniture of the school and construct the well playground for our school, we will be able to provide quality education to the students.

Once again, thank you so much for your help. Our school's family and the people of this place always are ready to welcome and thank to your project and you because you have helped to make two-story building, which has four rooms, and a wall. We are looking forward to getting favorable response from you. We remain sir.

Yours Faithfully,

Headmaster

Uttam Rijal

Nepal Rastriya Secondary School, Gurans-6, Piladi, Dailekh

Note: Your project and you play a role of father to construct the two-story building, which has four rooms, and a strong wall. We hope you and your project will help us to construct the well playground and well furniture management to conduct extra-curricular activities at school. If you assist the budget to manage the furniture and make a beautiful and well playground of Nepal Rastriya Secondary School.

Subject: Thankful for your financial support

Respected Chairman,

*In this regard, we like to inform you that through your financial support our dream project of school construction is going to be complete. Through such a great financial support we school's family as well as all our community and students are excited and happy to see a great project in our village. Our neighbor village also getting excited to see such project and encouraged for such supportive work. As this is the first project that has been supported from such a great organization (**Namaste Gumda Nepal Organization, Kathmandu Nepal**). All our citizen are thankful and blessing for great future to you and your organization from inner heart. In such a dangerous stage of Covid-19, people are getting employment through this project where they are able to fulfill their basic needs. In this situation we have to suffer from high rate of materials, hard and high rated transportation but from few days the situation is being good for transportation but in economic situation it is high. So our community and school's family are working more hardly giving more time for construction in comparison to before arriving second season of covid-19. We are working in such hard situation of Covid by applying safety measures. Due to the climate of rainy season, our work gone hard and slow also had stopped for more than 5days. Also we made a decision of working in such situation by using plastics for protecting ourselves from rain.*

We are most thankful of you and your community for such a great support. We want to inform you that we have already received second installment of money and we are also thankful of chairman, Rajesh sir and all supportive members for such support. We pray your bright and long life. We hope in coming days we might get such support and help from you and all your members with pleased heart .And we request you to sent final installment payment. Thank you!

Sincerely

Shree Nepal Rastriya Madhyamik Bidhyala, School's Family
